Scholarships for Construction Science Students

Completing the single application process will result in applying for all CNS scholarships.

Undergrad and Graduate scholarship applications are due February 1st.

How to Apply for Scholarships

All undergraduate and graduate students in the College of Architecture may apply for scholarships through the Centralized Academic Scholarship Hub (CASH) at ou.edu/scholarships.
Balfour Beatty Construction Science Scholarship

Encourages students pursuing a commercial construction career to show leadership in student activities.
Board of Visitors Scholarship

To facilitate student retention by providing economic assistance to students in the College of Architecture.
Conner Field Work Scholarship

Awarded each year to the student or students with the highest grade in the fieldwork class.
Construction Science Recruiting & Retention Scholarship

To provide financial assistance to incoming freshman and sophomores and juniors majoring in construction science whose citizenship, leadership and scholarship have distinguished them from other students.
Dorothy L. Shaw Construction Science Scholarship

Rewards a construction science student who has demonstrated potential for future success in the construction industry and who has demonstrated potential leadership through his/her past activities.
Duane & Carolyn Stevenson Endowed Scholarship

This memorial scholarship is being established to honor Duane and Carolyn Stevenson, who have consistently and sacrificially given of themselves and as a result have inspired and elevated countless lives. The intent of this scholarship is to facilitate opportunity for students with need and/or merit who are enrolled in the Haskell and Irene Lemon Construction Science Division Program by providing financial assistance to support their educational endeavors.
Haskell & Irene Lemon Family Undergraduate Scholarship

An annual award based on merit and awarded to students whose activities have demonstrated abilities to be leaders in the construction science program and in their future construction careers. Preference is given to U.S. citizens and Oklahoma residents.
Haskell & Irene Lemon Family Graduate Construction Science Scholarship

Intended to encourage and reward students for their activities in construction science extra-curricular activities and their involvement in the construction industry. Preference is given to U.S. citizens and Oklahoma residents.
Jason Henry Wittrock Memorial Scholarship (PDF)

To honor the memory of Mr. Jason Henry Wittrock by providing a scholarship for a deserving construction science student that has shown leadership in community service.
Joe & Jayne Buskuhl Scholarship

To provide economic assistance to academically promising undergraduate or graduate students who have limited financial means and are majoring in Arch, CNS, ID, LA, RCPL or Urban Studies.
Lippert Brothers, Inc. Scholarship

For a CNS junior or a graduate student with at least one more academic year remaining who has worked in the commercial or municipal construction industry for a minimum of one summer or equivalent period of time. Career goals of applicant must be focused on commercial or municipal construction and must be currently involved in the College of Architecture, Construction Science Division or student organization activities.
OU Club of Construction Science Scholarship

Provides scholarship to excellent students who show leadership and need financial assistance.
Retail Contractors Association Scholarship

To provide assistance to an academically deserving student pursuing a career in commercial construction upon graduation.
Raleigh K. Roussell Construction Scholarship

Supports diversity in the construction industry and rewards a construction science student who has demonstrated potential for future success in the construction industry, through leadership in past activities.
Robert E. Busch Memorial Scholarship

The purpose of the Robert E. Busch Scholarship is to provide financial support to construction science students in good standing (undergraduate or graduate) who are interested in estimating as a career or who are non-traditional students. The donors' intent is to provide support based on merit and/or financial need regardless if the preferences are met.
Additional Scholarships Available to Construction Science Students

The following are additional scholarships that are also available to Construction Science students. They have varying application deadlines and must be submitted to the appropriate organizations. We have tried to provide links when available. However, you will be notified of new scholarship opportunities; if you know of any additional scholarships, please let the Scholarship Coordinator know so that we can post them in this section of our website.

National Association of Women in Construction (NAWIC) Founders' Scholarship
Provide financial assistance for female students seeking a career in construction. The award is based on applicant’s interest in construction, grades, extracurricular activities, employment experience, and financial need.

11/01: Association of General Contractors National Scholarships
Provide financial assistance for students seeking a career in construction. The award is also based on student’s involvement with leadership and community activities. Students from across the nation compete for these scholarships. Get more information on this scholarship.

SPR: AGC of Oklahoma Education Foundation Scholarships
Applicant must be classified as a full-time student in a Construction Degree Program at OU, OSU, or OSU-IT within 40 hours of graduation, and maintaining a grade point average of 3.0 in their major. Students are encouraged to belong and participate in their respective AGC Student Chapter. Get more information on this scholarship.

SPR: Dallas CSI Foundation Scholarship
Please read the Dallas CSI Foundation Scholarship rules and regulations linked below carefully. The scholarships may only be awarded to a student with a minimum of three years of College/University credit completed and at least one year remaining to complete their professional degree.

SPR: Midwest Roofing Contractors Association Foundation Scholarship
The Foundation’s purpose is to provide financial assistance to students pursuing curriculum at an accredited university, in the roofing industry or construction related field. Candidates may be an undergraduate or graduate student. Get more information about this scholarship.

11/04: TEXO Scholarship
To encourage promising construction science students to continue their involvement in the construction industry in the North Texas area (DFW & East Texas) and to seek careers with TEXO member companies. Get more information on this scholarship.
